V. Life in 2050

Dear classmates,

Life in 2050 will be different from the life now, because changes will take place. But what will the changes be?

People will work fewer hours than they do now, and they will have more free time for traveling. Many people will go to other countries for holiday. Work in the future will be different, too. Robots will do lots of dangerous and hard work. So many people will have less work to do. This will be a problem.

I think our life will become better and better, but there will be more problems, too.

V. Hello, everyone!

Today, let me tell you how to make
scrambled eggs with tomatoes—a delicious dish.
Here are the instructions.

You need two eggs, two tomatoes, some
oil, sugar and salt. First, you should mix up the
two eggs. Next, cut the tomatoes into small
pieces. Then, pour some oil into the pan. After
a while, put the eggs in the pan, and then put
the tomatoes. Cook them for about three
minutes. Finally, don't forget to add a little salt
and sugar. Now we can enjoy it.

6. 略。

VI. Dear Tina,

I'd like to tell you our class plans for volunteer work in August. We'll help clean up

the train station on August 4. On August 11, we'll go to the old people's home and clean the rooms. And we'll help wash the clothes. We'll give performances, too. On August 18, we'll go to the People's Park to fix up bicycles and radios for people nearby. On August 25, we'll go to the primary school near our school to help the children with their homework and tell them stories. I'm sure we'll have a meaningful August.

Yours,

Lu Bing

VII. How to Spend a Meaningful Summer Vacation

The summer vacation is coming, but how shall we spend a meaningful vacation?

In my opinion, first, I should make a good plan about my study and exercise. I will do my homework one or two hours every day, then read some interesting books. Of course, I will exercise every day to keep healthy. I will run in the early morning, and play basketball in the afternoon. When I get tired, I will listen to music to relax. If possible, I will learn to swim. Besides, I'll try to learn to cook delicious food for my parents to enjoy, and do some housework for them, so that they can feel my love.

All in all, I'm sure I'll spend a meaningful summer vacation.

V. It's reported that labor education is included in the education of middle and primary schools in China. I think it's necessary, because it is good for our health. I can also relax from the study.

I usually do chores at home such as doing the dishes, sweeping the floor and taking out the rubbish. At school I often clean the classroom and water flowers. I feel relaxed after doing chores and I'm also excited when I can help my parents or teachers.

As for how to run the course in our school, I have some ideas. The school can offer different kinds of labor classes to teach us how to do the cleaning and grow plants. What's more, the school can also hold competitions about the labor skills to see who is the best. Such activities make our school life more colorful and meaningful. I am looking forward to taking the course in the new term. I believe I will do well in it.

IV. How to Keep Good Relations with Parents

I have too many rules at home. My parents don't allow me to choose my own clothes. And they care about my grades too much. I don't think they can understand me.

However, I try my best to understand them. Although they don't allow me to make my own decisions and give me too much pressure, I know it's because they really love me and want me to have a bright future.

In order to keep good relations with my parents, I study hard, listen to them and talk to them like friends. I tell them my troubles and help them do more housework.

Now I can get on well with my parents.
